Recommendation

For

Flexxomat T disinfection mats

The **Flexxomat T disinfection mats** have been subject to practical tests conducted by the German federal association of food (food industry) inspectors.

When used as described (in the user manual) and using the specific disinfectants, the Flexxomat T disinfection mats contribute very well to the optimization of basic hygiene and food safety.

For this reason we hereby authorize the use of our association's seal together with the addition:

**"Recommended by the German federal association of food inspectors e.V."
("Empfohlen vom Bundesverband der Lebensmittelkontrolleure Deutschland e.V.")**

For the period of two years, from 01-11-2018 until 31-10-2020, this recommendation may be used in all Sales and Marketing activities. This recommendation may be used, for the above mentioned period, in all European markets.

Yours sincerely,

Anja Tittes
(Bundesvorsitzende)
